**DATE:** JANUARY, 2008

This FY2006-07 annual report on the four Developmental Centers is based on data extracted from the developmental center's data system (HEARTS). The data extract is stored in the Division of Mental Health, Developmental Disabilities and Substance Abuse Service's Client Data Warehouse (CDW). Data on the developmental center's resident population, admissions, discharges and persons served are presented. Incorporated in the report are 7 tables and 1 graph. The number of persons served and the rate of persons served per 100,000 population is shown for each county in the state.

## MAJOR SERVICE INDICATORS

Major service indicators for FY2006-07 reported by the four centers show a mixed trend in most indicators. The resident population has shown a continuing decline since fiscal 1998. The total number of admissions shows an increase from (60) admissions in FY2005-06 to (110) admissions in FY2007. Black Mountain Center became a Neuro-Medical Treatment Center May 1, 2006 and their admissions are not included with the Developmental Center Annual Report but will be shown in The Special Care Annual Report.

O'Berry will be included next fiscal year in The Special Care Annual Report since it also will be considered a Neuro-Medical Treatment Center but is included in this Fiscal Year 06-07 Developmental Center Report.

## PERSONS SERVED

The number of persons served is the sum of the resident population and on leaves at the beginning of the fiscal year plus the number of admissions during the fiscal year. Table 2 shows the number of persons served by the four developmental centers from each county in the state.

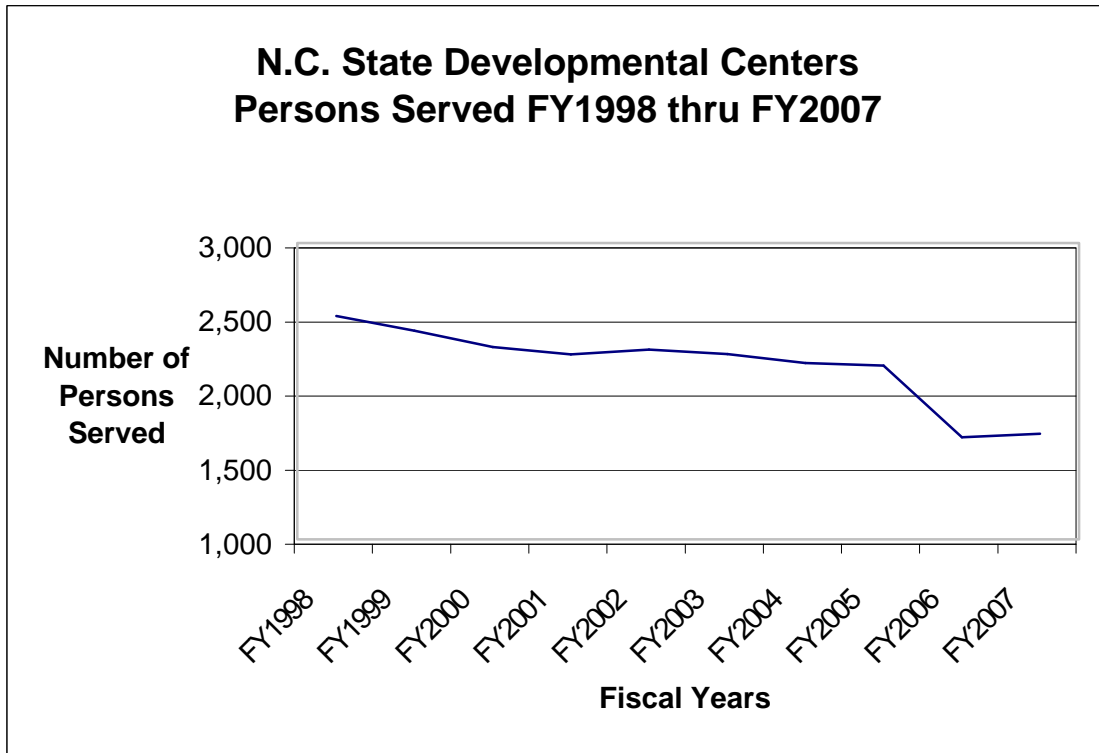

Also shown for each county is the rate of persons served per 100,000 county population. Table 2-A shows the number of persons served by the four developmental centers by selected indicators.
